

LED Bulb Instruction

Warning : Please read this specification before installation !

About product:

Our high light efficiency bulb using modern high-tech forging technology, built-in the efficient isolation without electrolytic capacitor long life drive power, air-cooled design with a patented, high luminous flux maintenance rate and low wear and tear the whole lamp life of 30,000 hours, and can be completely replacing the high-power energy-saving lamps and mining lamp !

Application of places:

- The hotel lobby high Down light
- Conference hall light
- Factory floor the high shed light & high ceilings Office main lighting
- Shopping malls and supermarket lighting
- Parking lot, gas station
- Night market tent lights

Specifications:

Input voltage : 100-277V/AC (50-60HZ)

Power: 30W/40W/50W

C C T: 3000K/4000K/5000K/5700K

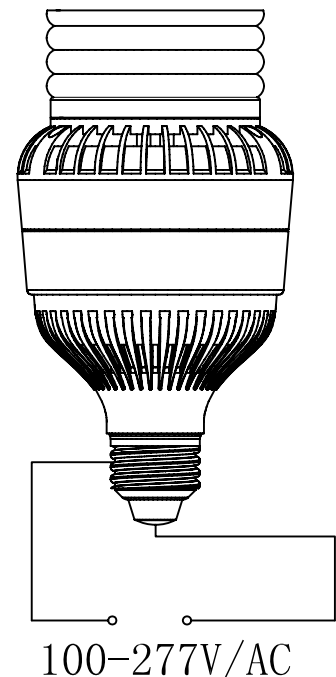

C R I: Ra>80

Lamp holder : E27

Operating temperature: -20° C - 40° C

Warranty: 2 years

Size: \varnothing 80 X 150 mm

※ Note

1. Make sure the power off before installation.
2. Make sure the tube working within right voltage range.
3. Please do not take apart the fixture .
